Building simple and elegant structures for complex interfaces is what I enjoy most about my work. I am also interested in designing beautiful minimal products and exploring typefaces.

EXPERIENCES

Pegasus Airlines
Senior UI Designer in Istanbul, TR
2015 - 2016

Designed wireframes for user focused site functionality and user experience. Sketched, designed and coded landing pages with XHTML/CSS. Created daily, weekly and monthly newsletters to reach over 14 million users.

Freelance
Nitpicky Designer in Roma, IT
2014 - 2015

Web and mobile app design, brand identity, print, and social consulting for small and medium size companies.

Seozoo, Inc.
Designer in Istanbul, TR
2013 - 2014

Helped with print advertising design, logo and brand identity for international advertising firms. Helped with layout sketches for brochure designs.

Hacettepe University
Designer in Ankara, TR
2012 - 2013

Helped with web and mobile app UI / UX design and product development. Also heavily involved in strategy and concepts. While built, I wrote solid semantic code for the product to perfectly match the design.
